To Whom It May Concern:

Reference for Mr Mirza Mujanović

Mr Mirza Mujanović was part of Coca-Cola HBC B-H summer internship "Virtual Coke Summership" for a period of four weeks, ending in July 2020.

During this period, he worked on market research project "Impact of Coronavirus on E-commerce in FMCG industry". While working on the project, he demonstrated strong analytical qualities and statistical knowledge. Moreover, he proved his skills in analyzing and drawing out relevant business implications from results of the research.

I have found Mirza to be an honest and straightforward person in his approach to work/project, with passion to learn new things, share his knowledge gladly, while in the same time ensuring support to all his team.

He has demonstrated a high degree of loyalty and trustworthiness to all CCH participants including all internees as well and has carried out his obligations with vigor and resolve, following new trends and technologies.

Mirza is a dedicated person with reliable and great work habits that are very important for future to any Employer. A hard-working self-starter who invariably understands business needs. He will certainly be an asset to any company which he is associated.

Always willing to pitch in to help the team, he is efficient in planning, punctual in meeting deadlines, and conscientiously adheres to company standards and guidelines.

For all these reasons, I highly recommend him without reservation.

I would gladly answer any request for further information.

Respectfully submitted,

Ines Jozic
Organization Development Manager
Coca-Cola HBC B-H
